This project is for making a 32-band audio (music) frequency spectrum analyzer / visualizer using Arduino. 32-Band Audio Spectrum Visualizer Analyzer Project showcase by shajeeb

140 audio Projects - Arduino Project Hub

Chapter 17: DSP Projects - Arduino Music and Audio Projects [Book] CHAPTER 17. DSP Projects. Having seen how you can use the Arduino for signal processing, now you'll see how you can use the much faster processor in the Due or the Zero in creating sounds and building projects. All these projects were done with the Due, but there is no reason why the Zero can't be used.
