Boeing 787 Flight Crew Operations

Crews that operate Boeing 777 and 787 aircraft have been notified about misleading pitch guidance during glideslope interference on instrument landing system (ILS) approaches. The Federal Aviation Administration (FAA) issued this warning of potential erroneous autopilot flight director system (AFDS) guidance in a special airworthiness bulletin on April 16th.

Boeing 777 And 787 Crews Warned Of ILS Approach Issues ...

In response to the incidents and the subsequent FAA bulletin, Boeing has issued a new Flight Crew Operations Manual Bulletin. The Boeing bulletin flags the problem and provides information on the operating instructions for AFDS operation during an ILS approach. The FAA also advised yesterday that Boeing is still working on updating the software ...
