Synopsis of Scalp Acupuncture - ITM Online

There are 15 stimulation areas in scalp acupuncture. Although they are called "areas", they are in fact extremely narrow bands of varying length, and it is along these lines that the needles are inserted. To perform scalp acupuncture (head needle therapy) effectively, the acupuncturist should locate the treatment areas with a great deal of...

15 stimulation areas in scalp acupuncture | medicalacupuncture

Positron emission tomography (PET) is used to observe the cerebral function widely and is a good method to explore the mechanism of acupuncture treatment on the central nervous system. By using this method, we observed the cerebral function of 6 patients suffering from ischemic stroke after receiving EA treatment at Baihui(GV20) and right Qubin(GB7).
