Having followed the computer science higher level course, students will be expected to:

- Know and understand:
  - relevant facts and concepts
  - appropriate methods and techniques
  - computer science terminology
  - methods of presenting information.
- Apply and use:
  - relevant facts and concepts
  - relevant design methods and techniques

## **International Baccalaureate Diploma Programme Subject Brief**

Computer science commonly presents levels (or, less commonly, layers) of abstraction, wherein each level represents a different model of the same information and processes, but with varying amounts of detail. Each level uses a system of expression involving a unique set of objects and compositions that apply only to a particular domain.
