Course Title Interactive Math Program

Interactive Mathematics Program is an integrated high-school mathematics curriculum designed to challenge students with a four-year sequence of college-preparatory mathematics. The curriculum has demonstrated in schools throughout the country that the successful study of advanced mathematics is an achievable standard for ALL students.

Interactive Mathematics Program® (IMP) - Activate Learning

The Interactive Mathematics Program (IMP) is a four-year, problem-based mathematics curriculum for high schools. It was one of several curricula funded by the National Science Foundation and designed around the 1989 National Council of Teachers of Mathematics (NCTM) standards. The IMP books were authored by Dan Fendel and Diane Resek, professors of mathematics at San Francisco State University, and by Lynne Alper and Sherry Fraser. IMP was published by Key Curriculum Press in 1997 and sold in 20
