For Better Science – Science Journalism by Leonid ...

Finally, a science-based relationship book. Based on social science, but science nevertheless. The constant research summaries can be a little exhausting, but Parker-Pope constantly relates the studies to real life through quizzes and a few anecdotes (sometimes it feels like she's trying a little to hard to make it "relate-able").

For Better: The Science of a Good Marriage by Tara Parker-Pope

It's the rare work, however, that has the rigor and factual grounding of For Better: The Science of a Good Marriage. Written with a sharp eye by New York Times health reporter Tara Parker-Pope, the book examines research studies on marriage and distills their findings into lessons for couples...

Hello world, this is my first blog for the Data Science community. In this blog, we are going to see the various types of transformations of data to better fit for normal distribution (Gaussian Distribution). We know that in the regression analysis the response variable should be normally distributed to get better prediction results.
