The musical repertoire selected by Craig Wright is a definitive collection of carefully chosen recordings by world-renowned artists. The complete Western repertoire is packaged in a five-CD set; a two-CD set provides a smaller, core selection of music for listening study; a separate CD provides selections from popular and non-Western music.

The good news is that CD players are catching up. The ability to play MP3 files from data CDs has already appeared in car and home stereo CD players. And like a computer, these can play both audio and data CDs. Unfortunately, unless that functionality is built in, it's not something that can be added later.
