The Setra Sensor - The core technology of the 264 is the all stainless steel capacitive sensing element. Setra designs and manufactures all of their sensing elements resulting in full control over the process and quality of every single sensor.

Model 264 | Low Differential Pressure Transducer

Setra's Model AXD Pressure Transducer is designed and built to withstand demanding industrial applications. The industrial non-oil filled construction, designed with a positive overpressure stop, enables the sensor to recover from overpressure conditions up to 8X the rated range. The AXD's capacitive technology offers worry free operation vs. oil-filled designs, which have a high cost of ...

The AEC Routemaster Bus Wiring Diagram is above the page. "AEC" is a UK company that manufactures vehicles, such as passenger buses (including tourist buses) and trucks from 1912 to 1979. The name is an abbreviation from the "Associated Equipment Company", but in its entirety it was practically not used, and the firm was known under the brands "AEC" and "ACLO".
