Sustainable Transport For Wales

Transport for Wales' aim is to transform the transport network in Wales and the borders so that it becomes truly sustainable and fit for future generations. Sustainable development plan 2019-20. Low carbon impact strategy 2019-20.

Sustainable development | Transport for Wales

These measures should not be limited to large urban areas, as the same principles apply for smaller towns in rural areas. We are seeking expressions of interest from local authorities across Wales to introduce measures to ensure the safety and reliability of sustainable transport modes during and following the Covid 19 crisis.

Written Statement: Funding for local sustainable transport ...

The 'Transport Fit for Future Generations Report' published by the Future Generations Commissioner for Wales, Sophie Howe shows how Wales could transform its transport system by investing in public transport, active travel and ensuring delivery of all phases of the South Wales Metro with the £1.4bn currently earmarked for the M4 Black Route.

Written Statement: Funding for local sustainable transport ...

Sustrans' analysis of a transport strategy for Wales demands that it achieves an environmentally sustainable and socially equitable transport system. The present transport system in Wales is neither of these. In fact, our transport system is becoming even more environmentally destructive, unfair, and damaging to our health.

Sustainable Transport for Wales
